

SEPTEMBER 2004 **PRESS RELEASE**

**THE GLOBAL GROUP RECEIVES BRONZE FOR IIDEX NEOCON CANADA 2004 BOOTH AWARDS
500 SQ. FT. OR OVER**

What's 'really' new at IIDEX NEOCON CANADA 2004? The Global Group of Companies -- including Global Total Office, Global Contract and Global Care-- will feature the first ever dedicated presentation of health care solutions at Canada's premier interior design and exposition. A 2500 square foot exhibit will showcase a broad range of new products as well as innovative product concepts that address the growing and changing needs of both acute care as well as long term care facilities. The changing North American demographic is making unprecedented demands on our health care system and an aging 'boomer' generation will be looking for environmental solutions and improvements that humanize the medical environment. The Global Group has made a major commitment to being a leader in the health care furniture industry and is working with both architects, designers and health care providers to create innovative and affordable new products. The exhibit presents a number of health care scenarios to showcase these innovations and their application to the built environment.
