Alero combines comfort and performance with exceptional value and design.

1960-2 High Back Knee-Tilter with adjustable Headrest, Shown in GIG1

1961-2 High Back Knee-Tilter (no Headrest)

Alero's breathable mesh back and comfortable padded seat create the perfect blend of comfort and design. Many adjustable features and a choice of functional mechanisms ensure the chair will perform well. Choose a sophisticated Multi-tilter for computer intensive activities or a tilter chair for casual offices or meeting rooms. All chairs feature an adjustable lumbar support that allows the user to customize the comfort of the back. In today's modern office where computer related activities are crucial, it is extremely important that one's choice in seating encourages comfort and productivity.

**Headrest** is height and angle adjustable to suit your personal preferences.

**Chair frame** made from fiberglass re-inforced nylon is very durable.

**Fabric** is made from elasticized, breathable mesh material that allows air transfer and provides comfortable support that contours to your body.

**Arms** are height adjustable and feature a "sliding armcap" that can be moved forward and rearward to provide better support for keyboarding and larger individuals.

**Lumbar** can be moved up and down to fit into the lumbar region. It can also be adjusted in or out by turning a knob on the back customizing the lumbar support for the individual user.

**Standard Base** is fiberglass reinforced black Nylon. Polished aluminum base is optional. **Casters** are available for both carpet or hard surfaces.

**Knee-Tilter**

Seat and back tilt from a pivot point near the front of the chair, infinite tilt-lock and tilt-tension controls.

**Multi-Tilter**

Forward and rearward seat tilt with infinite tilt-lock control and forward tilt lockout. Tilt tension control. Back angle control.

**Tilter**

Rearward tilt with upright position tilt-lock. Tilt tension control.

**Operator**

Two lever seat and back angle adjustment. Seat and back adjust independently and lock in any position or free float.

**Task**

Seat depth adjustment. Seat height adjustment.
