back angle adjustment
(posture task models)

Height adjustable "T"
arms with 30° rotating
armcaps to provide
maximum support

Ratchet back height
adjustment
(excluding armchair)

ButtonAdjust 2000 eliminates the need to use difficult to reach controls by conveniently locating push button adjustments on the side of the seat unlike conventional chair mechanisms. Pneumatic seat height and tilt adjustments are easy to make while seated ... with a simple push of a button.

Ergonomists recommend minor but constant movements to help eliminate muscle fatigue to help maintain an individual's alertness and productivity levels.

Simply stated ... the easier it is to adjust your chair, the more likely you are to actually use those adjustments.
