# Experience™'s optional features provide the right chair for every application

Elegant

9525  
Medium Back Armchair

Comfort & Support

9524  
Medium Back Wood Armchair

9522-3  
Medium Back Multi-Tilter

The back angle can be adjusted on most models to support the user comfortably while keyboarding, conferencing or relaxing. All arms provide height adjustment, while arm width adjustment is optional. Seats are compound curved with contoured cushions and a waterfall front edge for extended user comfort and support.

9521-3  
High Back Wood Multi-Tilter

Durable

9520-3  
High Back Multi-Tilter

Multiple models offer the consumer the right chair for every application. Back height is adjustable to allow the user to properly position the built-in lumbar support for optimum comfort.

Options

**Concealed Lumbar height adjustment** – operates by lifting the back to the users preferred position

**Standard "9S" boomerang shaped arms** – height adjustable arm in soft touch, durable self-skinned urethane

**Option "9B" boomerang arm** – height adjustable and offered in all standard wood finishes

**Deeply contoured cushions** – shaped foam ensures exact comfort every time and provides additional durability and support

**Optional seat slider** – available to allow the chair depth to be adjusted to fit the body. (Available on Multi-tilter and Synchro-tilter models only)
