

Filing & Storage

Innovative Solutions

Getting Organized

Flush, seamless welded top offers strength and rigidity with a clean appearance. The positive action cam lock allows filing cabinets to be keyed alike

Full progressive suspension supports the high side walls, eliminating the need for additional hanging bars

Sturdy, removable metal follower block is standard

Two rows of side to side letter files can be accommodated in each drawer

Letter and legal files can be accommodated in the same drawer

Legal size drawers can be converted to letter size with optional bars

9100 Plus Series

Full-width recessed pulls

These stylish cabinets feature full-width recessed pulls for effortless opening. The smooth and seamless welded corners of these quality built cabinets provide lasting strength. Fixed drawers accommodate three file sizes and are available with or without hanging file bars. Levelling glides ensure that drawers are easy to open.

2800 Series

28" deep 'Business' verticals

The 2800 Series offers legal or letter size vertical 'business' files with recessed or pull drawer handles. The flush, one piece welded tops enhance their appearance and provide superior strength and rigidity. The full height side walls eliminate the need for hanging file frames. A removable cam lock is standard.

Fully Integrated Filing & Storage

Lateral files and innovative storage solutions

9100 Series

Quality lateral files feature strong mig welded front corners and the interlock system prevents tipping by allowing only one drawer to open at a time. Fixed drawers accommodate three file sizes and all files have levelling glides, ensuring that drawers open easily.

Max-Stor modules are 24" high (36" width only) which fit easily into storage cabinets creating three individual compartments, with 12 adjustable trays
Wardrobe (36" and 42" width) features one full width shelf, four half shelves, a front to back coat bar and lock

The Inside Look

Corner gusset provides additional rigidity

One piece top adds strength

Added reinforced channel for additional rigidity in top of cabinet

Lock bars on both sides increase security

Removable core cam lock allows for keying changes in the office

File bar slots facilitate letter, legal or A4 metric hanging file storage

Suspension and safety interlock are integrated for added protection

Receding doors have rigid full hat channel to prevent door jamming

MIG welded corners provide strength and a clean, seamless look

Slotting for dividers are on 2" increments

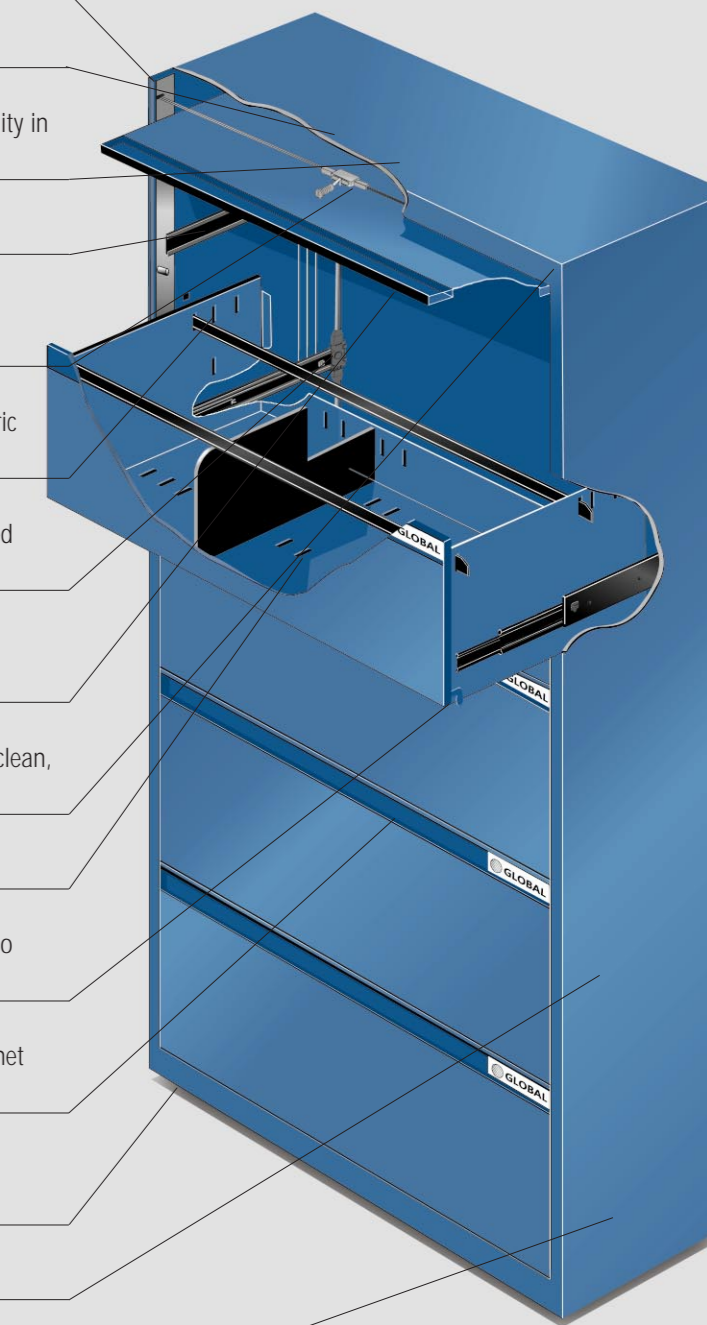

Two lock hooks are located on all openings to ensure proper closure

Ergonomically styled drawer pull allows cabinet to be easily opened

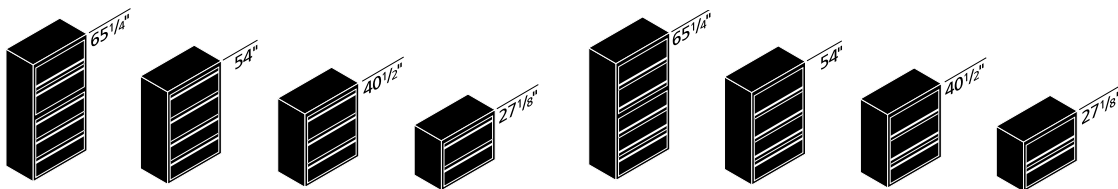

Four adjustable levelling glides enable proper installation

Durable environmentally friendly paint finish

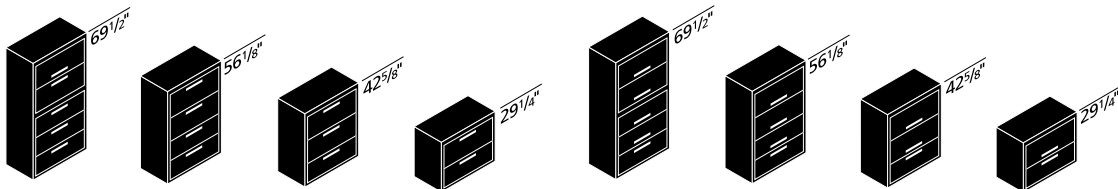

Ganging drill point locations (top and bottom) allow for convenient side by side installation
